As a result of the increased number of box lots and the logistics of storing these and delivering them to the auction venue, we have had to simply list them by lot number below. We have NOT sighted the contents as they are being delivered by the respective vendors on the auction day. On the basis all box lots need to be paid for and collected on the day, we rely on the bidder to have viewed these before bidding. The conservative reserves combined with past box lots from such vendors would indicate that they are worth taking the time to peruse. Those box lots with extended descriptions have all been viewed by the describers here at Ace Stamp Auctions & thus can vouch for the contents. Thank you.

There are 400+ leaves but unfortunately most of the best items like Germany 1927 IAA ovpts & Hungary LEHE M/S have obvious grease stains from tape used around the mounts & in previous mounting. This is reflected in the conservative estimate as this collection needs careful attention to salvage the unaffected material such as the Germany 1946 Weimar Theatre M/S in 2 papers & both imperf, Cuba 1960 Christmas se-tenant blocks & Bolivia 1945 Hymn M/S's (2). CSA (Czech Airlines) ceased flying in 1939 & after German capitulation in 1945, DLH (Lufthansa) took over CSA. This left the Royal Air Force to be the carrier of airmail until 1 Jan 1946 when British European Airways was formed. The display shows the standard foreign postage rates plus the airmail charges until 1960 when continental Europe & communist countries had a reduced rate incl the airmail fee. This differed in each country but these decreases continued until the devalue of the koruna in 1953 in Czechoslovakia. CSA resumed overseas flights in 1962 with services to Cuba & Central America. This exhibit carefully traces the routes, rates & airline changes that occurred after WWII until 1975. There are a few first flights covers but the majority are commercial covers with destinations incl Austria, Australia, Belgium, Chile, Denmark, France, Newfoundland, Poland, Peru, Southern Rhodesia, Switzerland, Norway, UK & USA. Noted registered, redirected, metered, unstamped, taxed & other types of commercial covers & cards. Well researched by the late Ross Wood who states on the intro page "The rates shown in this exhibit have been determined by the examination of many, many covers over the years through personal research" & this was rewarded by a Vermeil medal at the Hong Kong 2016 International Stamp Exhib. Continues with a mix of envelopes & pre-stamped postcards displaying a variety of markings incl first flight, tax & pictorial cachets. As a number of different airlines are represented & covers are both outgoing & incoming, there is a wide variety of frankings & rates. Last exhibited at Phila Taipei in 2016 by the late Ross Wood where it received a Large Vermeil. (64)	\$1,200

	caught fire shortly past the runway on take-off. This was the first fatal accident and third hull loss of a Boeing 747. This	
	was also the third fatal accident involving a wide-body aircraft, after Eastern Air Lines Flight 401 in 1972 and the crash	
	of Turkish Airlines Flight 981 earlier in 1974. To date, it is also the deadliest plane crash to occur on Kenyan soil. There	
	were 61 fatalities with the aircraft completely destroyed by fire. Investigation determined that the cause of the crash was a stall at low altitude precipitated by pilot error in not extending the leading edge flaps for take-off. This procedure
